

Proposal Rubric

This rubric is intended to help guide expectations and increase transparency. However, it is not necessarily fully exhaustive. Make sure to read the detailed explanation on Moodle.

Project set up (2 points)

- Successfully creates repository and adds all group members to the repo (**1 point**)
- Uses well formatted markdown throughout this document (headers for each section, lists where appropriate, hyperlinked words, etc.) (**1 point**)

Domain of Interest (13 points)

- Why are you interested in this field/domain? Describes in at least 2 - 3 sentences why the group is interested in this area. May be personal, or related to pertinence of the domain. (**1 point**)
- Three examples of other data driven projects related to this domain (**6 points**, 2 points each)?
 - Provides link to a data driven projects (**1 point**)
 - Briefly describes the project in 1 - 2 sentences (**1 points**)
- Three data-driven questions do you hope to answer about this domain (**6 points**, 2 points each)
 - Question is related to the field (**1 point**)
 - Question can be answered with data (**1 point**)

Finding Data (15 points, 5 points each)

For each identified data source, provide/complete the following:

- Link to URL where data is from (**1 point**)
- Download the data into the project repo in a `data/` folder (**1 point**)
- Description of how was the data collected or generated (**1 point**)
- How many observations (rows) and features (columns) are in your data(**1 point**)?
- What questions (from above) can be answered using the data in this dataset(**1 point**)?
